LIVER-OK^{Liquid}

LIVER-OK^{Liquid}

Liver & Transition Health Tonic

- ✓ Protects liver damage from various toxins
- ✓ Augments liver functions and Secretions
- ✓ Improves feed intake
- ✓ Enhances milk production and weight gain

Liver Stimulant, Regenerative & Antioxidant Enriched with L-carnitine & Choline Chloride

Hepatostimulant & Hepatoprotective tonic. It helps in motivating the proper functioning of vital organs for acceptable growth and performance. It helps in improving liver function, promotes bile secretion thus support metabolism process, proper digestion and assimilation of feed. It also improves appetite, promotes detoxification of toxins, support blood flow of uterus and hormonal balance.

BENEFITS:

- Improves fatty acid metabolism.
- Prevents ketone body formation.
- Optimizes digestion & utilization of feed ingredients.
- Helps in countering hepatic damage caused by deworming agents.
- Helps in improving milk production .

DOSAGE:

Cows, Buffaloes, Horses and Camels:
50 ml twice daily.
Calves and Pigs: 20-25 ml twice daily.
Sheep and Goats: 15-20 ml twice daily.
or as directed by Veterinary Consultant.

PRESENTATION:

100 ml, 250 ml 500 ml & 1 ltr

COMPOSITION:

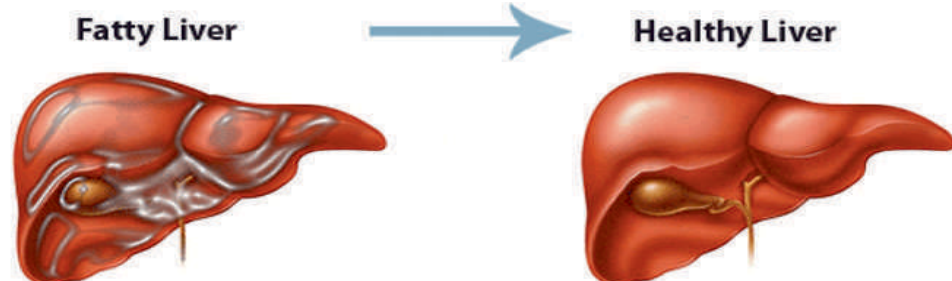

Each 100 ml contains

Choline chloride	1 gm
L carnitine	18 mg
Carduus marianus	1 gm
Tephrosia purpurea	5 gm
Cichorium intybus	3 gm
Picrorhiza kurroa	1gm
Phyllanthus niruri	3 gm
Eclipta alba	3 gm
Boerhavia diffusa	4 gm
Andrographis paniculata	3 gm
Solan um nigrum	3 gm
Azadirachta indica	2 gm
Ocimum basilicum	3 gm
Silymarin	500 mg
Ferrous chloride	300 mg
Thiamine hydrochloride	16.66 mg
Riboflavin	16.66 mg
Ferrous gluconate	700 mg
Nicotinamide	150 mg
Nicotinic acid	66.66 mg
Calcium lactate	1 gm
MHA methionine	2 gm
Liver fraction	500 mg
Sugar	15%

**B-Complex Liver Extract with
Vitamin B12 Injection**

It is specially indicated for the treatment of anorexia and liver disorders associated with fatty degeneration of liver, Sluggish liver, Debility and general weakness, Blood protozoan diseases, Hepatitis and Jaundice, reduced intake, stress etc.

BENEFITS:

- Ensures improved liver functioning
- It aids in detoxification of harmful toxins
- Helps in proper secretion of enzymes
- Acts as hepatostimulant & hepatoprotective tonic
- Protects the liver against toxic effects of chemical activity & various toxins
- Aids in achieving faster and proper development of consumer dairy animal
- Ensures improved feed metabolism

DOSAGE :

As directed by the Veterinarian.

WITHDRAWAL PERIOD :

Milk : Nil

Meat : Nil

COMPOSITION:

Each ml contains :

Thiamine Hydrochloride I.P.	10 mg.
Riboflavin I.P.	3 mg.
Niacinamide I.P.	100 mg.
Vitamin B12 (Cyanocobalamin) I.P.	10 mcg.
Liver Injection Crude	0.66 ml.
(Having Vitamin B12 Activity eq. to 2 mcg. of Cyanocobalamin per ml.)	
Phenol I.P. (As Preservative)	0.5 % w/v

COMPLETE
SOLUTION
FOR UTERINE
PROBLEMS

UTROVIBE

Liquid

Helps to Facilitate expulsion of retained Placenta and supports milk production

Unique ecboic tonic helps to facilitate expulsion of retained placenta. Helpful in delayed involution of uterus, post partum oestrus, and repeat breeding. Promotes milk production and It also helps in rectal, vaginal lubrication and sanitization at the time of pregnancy.

Oral Uterine Cleansing Tonic

CLINICAL NUTRITION IN CATTLES

NORMALLY

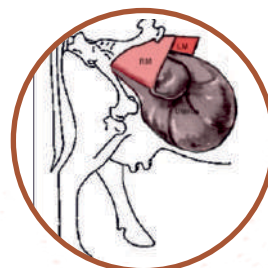

The membranes should be expelled in from half an hour to 4 or 5 hours after the birth of the calf.

CAUSES

Causes: Many causes leads to retained placenta but from nutritional aspect, retention of placentas is associated with a selenium deficiency.

TREATMENT

Hormonally

Retained Placenta

Facilitated
expulsive
state attained
due to
Utrovibe intake

BENEFITS:

- Helps to enhance uterine contractions leading to complete removal of placenta and uterine debris after calving.
- Useful in repeat Breeding, Silent Heat, Retention of Placenta and Lochial discharge.
- Helps in proper lubrication & clearing of placenta from uterus.
- Helps in maintaing estrogen and promote ovulation.
- Helps in keeping uterus wall healthy.
- Promotes involution of uterus and milk production.

DOSAGE:

450 ml, instantly after parturition & repeat after 6 hours.

For any other uterine dysfunction 150 ml / per day.

or as directed by Veterinary Consultant.

PRESENTATION:

250 ml, 500 ml & 1 ltr

COMPOSITION:

Each 5 ml contains

Zinc chelated	400 mg
Copper chelated	300 mg
Iron	500 mg
Cobalt chelated	200 mg
Jivanti	500 mg
Satavar	500 mg
Citrullus colocynthis	250 mg
Aristolochia indica	250 mg
Cedrus deodara	150 mg
Dashmol	100 mg
Syzygium cuminii	40 mg
Asparagus racemosus	40 mg
Withania somnifera	40 mg

RUMI-OK

POWDER

RUMI-OK

POWDER

Strongest Rumen Booster, appetite stimulant digestive powder for livestock

RUMI-OK animal feed supplement that support proper functioning of digestive system and promotes efficient digestion in ruminants. It helps in improving appetite and FCR, enhances salivary juice as well as gastric juice secretion, improves essential minerals absorption and assimilation, improves gut microflora, promotes better growth and performance.

BENEFITS:

- Stimulates appetite.
- General tonic.
- Promotes healthy liver.
- Boosts digestive Enzymes.
- Helps to increase weight gain.
- Reduces the risk of aflatoxicosis.

DOSAGE:

Cow, Buffalo and Horses: 20-40 gm twice daily mixed with feed
Calf, sheep and Goat: 10-13 gm twice daily
Inclusion: 1-2 kg/ton of feed
 or as directed by the Veterinary Consultant.

PRESENTATION:

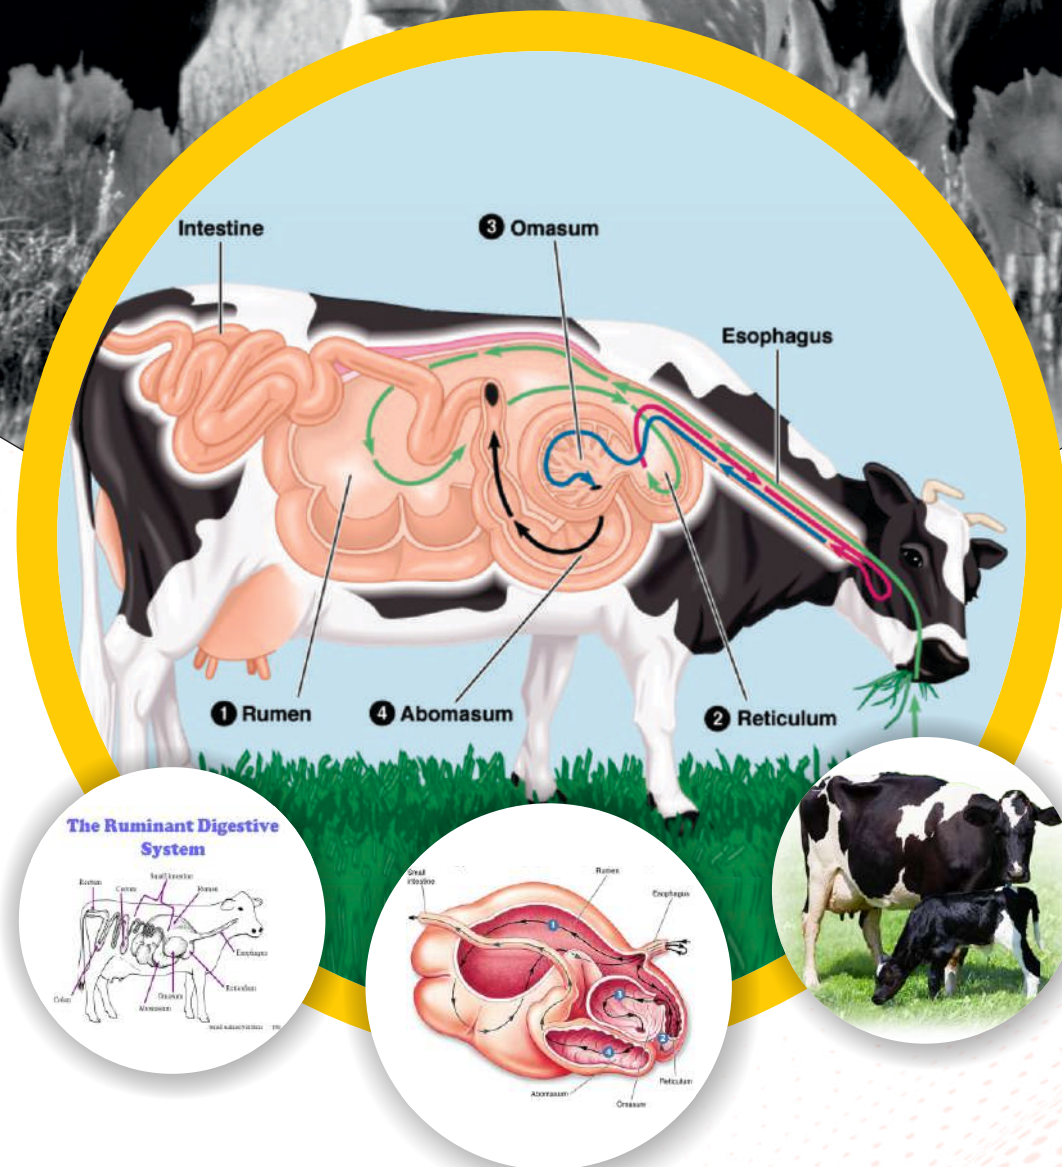

250 gm, 500 gm, 1 kg & 5 kg

COMPOSITION:

Each 100 gm. Contains	
Rumen stable enzymes	500 mg
<i>Lactobacillus sporogenus</i>	03 gm
<i>Saccharomyces cerevisiae</i>	02 gm
Mannan Oligosaccharides	03 gm
Live yeast	300 mg
<i>Pueraria tuberosa</i>	10 gm

PYROVIBE

Rx

Piroxicam with Paracetamol Injection

Piroxicam with Paracetamol helps in giving relief to the animal. The animal suffering from pain, inflammation, joint stiffness, etc is given relief from the use of Pyrovibe. Pyrovibe also helps in curing the fever of the animal. It also helps in giving relief from arthritis. Pyrovibe helps in providing relief from the various problems.

ANTI-INFLAMMATORY

- ▶ PYROVIBE Rapidly reduces inflammation
- ▶ PYROVIBE Reduces mammary gland oedema

ANALGESIC

- ▶ Rapidly reduces the pain in Mastitis

ANTIPYRETIC

- ▶ PYROVIBE starts normalizing the fever within 20-30 minutes

- ✓ Mastitis
- ✓ Lameness
- ✓ Pyrexia/Fever
- ✓ Post operative Pain
- ✓ & inflammation

INDICATIONS:

- More than 24 hours Action
- Most Powerful Inflammatory Action
- Most Powerful Analgesic Action
- Totally Safe no Harm to the Body
- Restore Mobility.

WITHDRAWAL PERIOD :

Milk : 7 days after Last Administration
Meat : 35 days after Last Administration

SAFETY

- PYROVIBE is non embryo toxic & non-teratogenic
- Safe in pregnancy

SUSTAINABILITY

- Piroxicam in PYROVIBE has plasma elimination half life 30 to 86 hours.

COMPOSITION:

Each ml contains :

Piroxicam	I.P.20 mg
Paracetamol	I.P.150 mg
Benzyl Alcohol (As preservative)	I.P.4.0% v/v
Water for Injection	I.P.q.s

**Restore the
Energy Boost Up
the Productivity**

- ✓ **Stress Conditions**
- ✓ **Adjunctive therapy in ketosis**
- ✓ **Pica (Due to Phosphorus Deficiency)**
- ✓ **Supportive therapy for increasing muscular efficiency in Animals**

CATTLE PHOS

Butaphosphan & Cyanocobalamin Injection

CATTLEPHOS is a preparation of Butaphosphan (Phosphorus) along with Cyanocobalamin (Vitamin B12) which acts as a metabolic stimulant, roborant & tonic. Butaphosphan, the Phosphorus compound acts as an anabolic agent in animal body & stimulates in the process of transformation of food into living tissue. Cyanocobalamin influences in protein, carbohydrate & fat metabolism and Cyanocobalamin also promotes formation & maturation of red blood corpuscles. Jointly Butaphosphan & Cyanocobalamin improve the availability of energy & assist in balancing of cyanocobalamin & mineral disorder.

BENEFITS:

- Increase muscular performances in animals kept for Fattening, breeding & other purposes.
- Metabolic disorders in case of poor nutrition, inadequate management care or diseased condition.
- Tonic in case of weakness, secondary anaemia & excretion.
- Roborant in case of stress, over exertion & reduced resistant to healthy animals.

DOSAGE :

Cattle, Horse & Camel: 10-25 ml

Foal & Calf: 5 - 12 ml

Sheep & Goat: 2.5 - 8 ml

Lamb: 1.5 - 2.5 ml

Multidose Vial: Maximum number of pricks should not exceed ten.

WITHDRAWAL PERIOD :

CEFTRIAXONE INJECTION

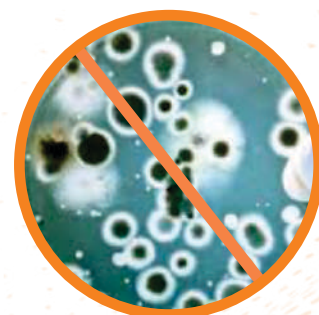

Faster & Immediate Action.

Broad Spectrum Coverage of Pathogens.

High Success Rate in Serious Infection.

Very useful in treatment of routine case.

- ✓ Mastitis
- ✓ Septicemia
- ✓ Urinary Tract Infection
- ✓ Bacteria Meningitis
- ✓ Pyometra

CATTLE-CEF

^{Rx}

Ceftriaxone Injection I.P.

Cattle-Cef is the latest generation semi synthetic cephalosporin with broad-spectrum bactericidal activity and effective against gram positive and gram-negative aerobes and anaerobes. Ceftriaxone is distributed widely in various tissues and body fluids. Ceftriaxone therefore appears to be promising antibacterial for clinical use in large animals.

Cattle-Cef impairs bacterial cell wall synthesis by inhibiting the enzyme transpeptidase that is responsible for cross-linking of peptidoglycans. effective against all major Gram positive & Gram Negative organisms.

INDICATIONS:

- Acute or sub clinical Mastitis
- Respiratory tract infection
- Operative prophylaxis and Postoperative treatment
- Skin & Soft tissues infections
- Urinary tract infections
- Gastrointestinal tract infection
- Bacterial Septicemia and Meningitis

DOSAGE :

As directed by the Veterinarian.

Bolus

Rx

Fenbendazole & Ivermectin Bolus (Vet.)

Fendivibe Plus is a broad spectrum benzimidazole anthelmintic. Fendivibe Plus is very active against the major ruminant parasites of the abomasum, small intestine, large intestine and lungs. Fenbendazole is effective against roundworms, hookworms, whipworms and certain tapeworms. It is effective against immature and arrested larvae and adult nematodes. Fendivibe Plus is also a broad-spectrum anthelmintic effective against gastrointestinal nematodes and ectoparasites (Lice and mites).

BENEFITS:

- Highly effective against small and large intestinal worms, caecal & abomasal nematodes.
- Effective against lung and tape worms. 85% efficacy against liver flukes.
- Broad spectrum anthelmintic having both larvicidal & Ovicidal activities.
- Particularly valuable in the treatment of double or triple infection.
- Act by interfering with the energy metabolism of worms.

Bolus

Fluke and Worm Drench For Cattle and Sheep

Oxyclozanide, Levamisole Hcl

Flukevibe DS “Oxyclozanide & Levamisole” is a veterinary medicine used to treat and manage certain parasitic infections in animals. It is mainly employed to address gastrointestinal and lungworm infections in animals such as cattle, sheep, and goats. The medicine is effective against a range of parasites, including liver flukes and various gastrointestinal worms. It works by disrupting the metabolism leading to their removal from the animal’s system.

BENEFITS:

- Support against fluke infection.
- Effectively inhibits enzymatic processes in flukes as acid phosphate and alkaline phosphate widely distributed in tegumental tissues of flukes.
- Effective against nematodes and trematode and controls all stages of ostertagia.

DOSAGE :

As directed by the Veterinarian.

COMPOSITION:

Each uncoated bolus contains :			
Oxyclozanide	IP		4 gm
Levamisole Hydrochloride	IP		2 gm
Excipients			q.s.

FENBENDAZOLE & IVERMECTIN

CONTROL STRATEGY FOR INTERNAL PARASITE CONTROL

SUCKLING ANIMALS

... at **5/6 months** of age to ensure maximum growth and weaning mass

AT WEANING

... to clean them from summer internal/external parasites for minimal loss of mass during winter

ADULT ANIMALS

... **at end of autumn** to clean out summer internal/external parasites; and

... **spring/before mating** to maximize milk production (better growth of calves) and quicker regaining of condition for increased conception rate

WORMS-OK PLUS

Suspension

Rx Fenbendazole & Ivermectin Oral Suspension

Worms-OK Oral Suspension is formulated to comprise the drug FENBENDAZOLE & IVERMECTIN. It is simultaneous treatment and control of all internal parasitosis such as gastrointestinal and pulmonary nematodes, including cases of acute, subacute and chronic fasciolasis, taenias and nematodes. It also helps for the treatment and control of sucking ectoparasites such as flies, lice mites and grubs. Worms-OK used against a number of gastrointestinal parasites including Roundworms, Giardia, Hookworms, Whipworms, the Taenia genus of Tapeworms, Pinworms, Aelurostrongylus, Strongyloides etc.

BENEFITS:

- Broad Spectrum anthelmintic, highly effective against immature and mature stages of tape worms, lung worm, adult liver flukes in cattle, buffaloes, sheep, goats, horses and pigs.
- Used against a wide range of parasitic worm's infestations in animals.
- Controls the ectoparasites and endoparasites.
- Highly effective anthelmintic against Tapeworms,
- Roundworms, Hookworms and Whipworms in small animals.

Chelated CATTLEMIN Super

VITAMINS+MINERAL FEED SUPPLEMENT

For helping in improved Fertility and Productivity
in dairy and fishing industry

Chelated Cattlemin animal feed powder supplement enriched with essential minerals and vitamins that helps in providing proper growth and performance to the growing, adult and lactating animals. It support proper milk production, metabolism process, stimulate muscles contraction, helps to maintain integrity of bones and teeth, maintain acid-base equilibrium, and enhances protein synthesis, support healthy reproduction and growth of animals.

BENEFITS:

- Prevent nutritional deficiency
- Enhances production & performance
- Nutritional support to pregnant animals
- Regulates hormonal balance
- Helpful in stress conditions
- Promotes better growth of animals
- Improves fertility rate & repeat breeding

DOSAGE:

Cow & Buffalo : 10-20 kg./Ton of Feed
Calf, Goat & Sheep : 5-10 kg./Ton of Feed
Poultry & Aqua:
500 gm - 1 kg per MT of prepared feed
For Regular Supplementation
Cow, Buffalo & Horse : 50-100 gm daily
Calf, Goat, Pig & Sheep : 25-30 gm daily
or as directed by veterinary consultant.

PRESENTATION:

500 gm, 1 kg, 5 kg, 10 kg & 25 kg

Minimum mineral
to mineral interaction

Prevents degradation
of nutrients by
ruminal microbes

Maximum stability
& Absorption

Higher
Bio-availability

COMPOSITION:

Nutritional value per kg	
Vitamin A	7,50,000 I.U.
Vitamin D3	75,000 I.U.
Vitamin E	500 mg
Niacinamide	1000 mg
Cobalt	200 mg
Copper	4500 mg
Iodine	500 mg
Iron	2000 mg
Magnesium	6000 mg
Manganese	3000 mg
Potassium	154 mg
Sodium	25 mg
Sulphur	0.95 %
Zinc	9600 mg
Calcium	24.6 %
Phosphorus	12.3 %

IMPORTANT INFORMATION

- Chelated Cattlemin Super is free from spores of Bacillus anthracis, Clostridium species.
- Chelated Cattlemin Super is free from adulterants, visible moulds & undesirable odour.
- Chelated Cattlemin Super is free from putrid smell.

CATTLESTAR Gel

**Ionic Calcium Rich Gel,
Maintain Calcium levels &
Helpful in Milk Fever**

Calculated calcium for maintaining optimal blood calcium levels

A multivitamin formulation for improved metabolism

Vitamin D3 for calcium & phosphorous absorption

Oil-based fast absorption with no withdrawal time

CATTLESTAR Gel

Ionic Calcium Rich Gel, Maintain Calcium levels & Helpful in Milk Fever

Cattlestar Gel maintains availability of Calcium, Phosphorus, Vitamins & galactagogue herbs to improve strength and immunity. It helps in protecting from the Milk Fever, support udder management, strengthens against stress, anxiety and support daily calcium requirement in developing and adult animals.

BENEFITS:

- Helps to maintain calcium levels.
- Minimize the chances of hypocalcemia.
- Reduces the risk of milk fever and calcium related issues.
- Promotes increase in milk yield.
- Provide immunity to favour normal contraction of uterus, normal calving and timely expulsion of placenta.

DIRECTIONS FOR USE:

For higher milk yield, administer one bottle per animal per day for 5-10 days or directed by the Veterinarian.

DOSAGE:

Give one bottle at the first sign of calving & give another bottle 6 to 12 hours post calving, repeat every 12 hours as needed or as directed by the veterinarian. A post calving dose of Cattlestar Gel is very beneficial.

COMPOSITION:

Each 100 gm contains

Calcium (Ionic Source)	6600 mg
Phosphorus	3400 mg
Vitamin B ₁₂	400 mcg
Vitamin D ₃	32000 I.U.
Magnesium	1000 mg
Calcium chloride	500 mg
<i>Pueraria mirifica</i> extract	250 mg
Excipients	q.s.

PRESENTATION:

300 gm

CATTLESTAR Gel Advance

ORAL CALCIUM & PHOSPHORUS
WITH ADDED VITAMINS

कैटलस्टार एडवांस जेल

Power of Calcium, Phosphorous,
Vitamins & Herbs

A Comprehensive Nutritional Supplement
for Dairy Cattle

Energy Generation
Udder Tissues Rejuvenation
Maintains Milk Persistency
Prevents Milk Fever
Fast Absorption

Calculated calcium for maintaining
optimal blood calcium levels

A multivitamin formulation for
improved metabolism

Vitamin D3 for calcium &
phosphorous absorption

Oil-based fast absorption with
no withdrawal time

CATTLESTAR Gel Advance

Comprehensive nutritional supplements formulated
to supply the essential nutrients to dairy animals.

High milk yielders often face a decline in milk persistency due to inadequate calcium supplementation, resulting in milk fever relapses and reduced production. Cattlestar Advance Gel formulated address this challenge by providing essential nutrients and adaptogenic herbs to support milk persistency in dairy animals.

BENEFITS:

- Helps to reduce the risk of milk fever.
- As an aid to increase the milk yield.
- Provides supplement support to favour the normal contraction of uterus, normal calving & timely expulsion of placenta.

DIRECTIONS FOR USE:

Regular use:

For higher milk yield, administer one bottle per animal per day for 5-10 days or as directed by the Veterinarian.

Prevent milk fever:

Give on Bottle at the first sign of calving & give another bottle 6 to 12 hours post calving, repeat every 12 hours as needed or as directed by the veterinarian. A post calving dose of CATTLESTAR ADVANCE GEL is very beneficial.

COMPOSITION:

Each 100 g of calcium gel provides:

Chlorophytum borivilianum	12 g
Prunella vulgaris	5 g
Trichosanthes kirilowii	2 g
Clematis mandshurica	2 g
Calcium	10000 mg
Phosphorus	5000 mg
Pueraria mirifica ext	200 mg
Vitamin D3	32000 I.U.

APPROPRIATE OVERAGES OF VITAMINS ARE ADDED

A dairy cow has to maintain normal blood calcium levels after delivery. Milk and colostrum is very rich in calcium, so a cow must immediately shift its metabolic priorities to adjust sudden calcium outflow through milk. Subclinical hypocalcemia is observed if a cow fails to maintain optimum blood calcium levels. Subclinical hypocalcemia is defined as low blood calcium concentrations without obvious clinical signs. Subclinical hypocalcemia affects about 50% of dairy cattle that are fed typical pre-fresh diets in their second or greater lactation. Subclinical hypocalcemia is more costly than clinical milk fever because it affects a much higher percentage of cows within a herd. Even if a sufficient quantity of calcium is present in the feed, it may not be absorbed by the cow due to limitations on calcium absorption. Liquid calcium is the best supplement to minimize the risk of subclinical hypocalcemia.

BENEFITS:

- Improves dry matter intake by improving rumen health.
- Improves milk production and percentage of fat in milk
- Keeps livestock animals healthy Strengthens bones
- Maintains optimum levels of calcium in lactating cows
- Increases milk production after calving
- Improves growth rate of calves
- Improves health of uterus
- Boosts immunity
- Helps to mitigate the effects of milk fever and subclinical hypocalcemia, and therefore reduces economic losses.

DOSAGE

Species	Daily Dosages	Species (For 100 birds)	Daily Dosages
Calf, Foal & Pig	40 ml	Chicks & Broilers	10 ml
Sheep, Goat & Dog	20 ml	Growers	20 ml
Cattle & Horses	100 ml	Layers	50 ml

PRESENTATION:

1, 2, 5, 10 & 20 ltr

COMPOSITION CONTENT PER 100ML

MINERALS	UOM	VALUE	MINERALS	UOM	VALUE
Calcium	mg	6100	Zinc	mg	1500
Phosphorus	mg	3050	Chromium	mg	5
Vitamin D3	I.U.	12000	Copper	mg	500
Vitamin B12	mcg	100	Shatavari Extract	mg	1500
Vitamin E	I.U.	1000	Jivanti	mg	1500
Vitamin H (Biotin)	mg	30	Silymarin	mg	450
Carbohydrate	mg	30000	Piper Longum	mg	400

Not for human / medical use. Animal feed supplement only.
Only for Calf, Foal, Pig, Sheep, Goat, Dog, Cattle, Horses, Chicks, Broilers, Growers & Layers

3 Better Development of Reproductive System

Chelated

CATTLESTAR-DS

Super Power Calcium Tonic Enriched with Galactagogue Herbs

CATTLESTAR-DS is double powered liquid formulation enriched with highly bioavailable double strength of calcium, phosphorus, vitamin A, D3, B12 & galactagogue herbs.

This product shows best results as it contains chelated element that protects the nutrients from combining with other element or losing nutrient value for absorption. Chelated product provides several benefits including nutrient mobility, nutrient precipitation prevention & much more. Thus this liquid preparation enhances the productivity of dairy animals & accomplishes their proper healthy state.

BENEFITS:

- Promotes & improves milk production & fat %.
- Helps in stress conditions as it builds immunity.
- Helps in development of udder & reduce the risk of mastitis.
- Promotes healthy growth of fetus & healthy pregnancy.
- Easy letdown of milk.
- Improves bone strength & muscle tone.
- Helps to maintain calcium & phosphorus levels.

DOSAGE :

Cow, Buffalo & Horses: 50 ml. twice daily Orally
Calf, Colt, Foal: 20 ml. twice daily Orally
Sheep & Goat: 10 ml. twice daily Orally
or as directed by Veterinary Consultant

PRESENTATION:

1, 2, 5, 10, & 20 ltr

COMPOSITION:

Nutritional Value Per 100 ml.

Calcium (Bio available)	3600 mg
Phosphorus (Bio available)	1800 mg
Vitamin A	160000 I.U.
Vitamin D ₃	16000 I.U.
Vitamin B ₁₂	200 mcg
Copper - Chelated	50 mg
Zinc - Chelated	150 mg
Leptadenia reticulata	1000 mg
Asparagus racemosus	1000 mg
Silybum marianum	500 mg
Pueraria mirifica	250 mg
Carbohydrate	40000 mg
Flavoured Base	q.s.

Not for human / medical use. Animal feed supplement only.
Only for Calf, Foal, Pig, Sheep, Goat, Dog, Cattle, Horses, Chicks, Broilers, Growers & Layers

CATTLESTAR

**Strongest
Milk Booster
Formula**

✓ Ensures enhanced milk production

✓ Ensures greater absorption of calcium

✓ Ensures improved growth and energy

CATTLESTAR

A Powerpack for Livestock Capability

CATTLESTAR is a comprehensive product that addresses both primary & secondary factors contributed to stress as well as immune related issues. Regular usage of this product helps in lactation period of dairy animals.

It contains highly bioavailable forms of calcium, phosphorus, vitamin A, vitamin E, vitamin B12 & vitamin D3 and other natural herbs which get absorbed very quickly in the body & gives effective desired outcomes. This liquid preparation acts as good feed supplements as it efficiently supports optimal growth and performance of breeders.

BENEFITS:

- Improves milk Yield.
- Helps in reducing the risk of Rickets, emaciation & debility.
- Promotes growth & stamina.
- Reduces the risk of infertility.

DOSAGE :

Cow, Buffalo & Horse : 100 ml daily
Calf, Foal & Heifer : 40 ml daily
Sheep & Goat : 20 ml daily
or as directed by Veterinary Consultant

PRESENTATION:

1, 2, 5, 10, & 20 ltr

COMPOSITION:

Each 100 ml. contains

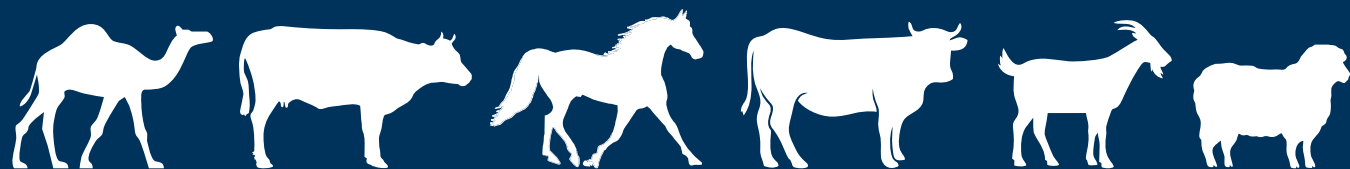

Vitamin A	45000 I.U
Vitamin D3	8000 I.U
Vitamin B12	100 mcg
Vitamin E	100 mg
Calcium	1628 mg
Phosphorus	838.5 mg
Laptadenia reticulata	2000 mg
Asparagus racemosus	4000 mg

Not for human / medical use. Animal feed supplement only.
Only for Calf, Foal, Pig, Sheep, Goat, Dog, Cattle, Horses, Chicks, Broilers, Growers & Layers
